SECTION 2 – FINANCIAL INFORMATION

Item 2.02 Results of Operations and Financial Condition

The information contained within Item 2.02 of this Form 8-K and the Exhibits attached hereto shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934 and shall not be deemed incorporated by reference in any filing under the Securities Act of 1933, except as shall be expressly set forth by specific reference in such filing.

On April 23, 2013, Ethan Allen Interiors Inc. ("Ethan Allen" or the "Company") issued a press release which contained certain preliminary operating results for the quarter ended March 31, 2013. A copy of the press release is attached hereto as Exhibit 99.1 and hereby incorporated by reference.

On April 24, 2013, Ethan Allen will conduct a conference call during which certain unaudited, non-GAAP financial information related to the Company's operations for the three and nine months ended March 31, 2013 and March 31, 2012 will be disclosed.

Exhibit 99.1 includes references to the Company's (i) consolidated operating income/operating margin, (ii) wholesale operating income/operating margin, (iii) retail operating income/operating margin, (iv) net income, (v) earnings per share, and (vi) earnings before interest, taxes, depreciation and amortization ("EBITDA"), all excluding the effects of restructuring charges as a result of the Company's previous decision to consolidate facilities, and also excluding certain transition costs and non-operating income adjustments in both fiscal 2013 and fiscal 2012. A reconciliation of these financial measures to the most directly comparable financial measure reported in accordance with generally accepted accounting principles ("GAAP") is also provided in Exhibit 99.1.

Management believes that excluding items which are deemed to be non-recurring in nature from financial measures such as operating income, operating margin, net income, and earnings per share, allows investors to more easily compare and evaluate the Company's financial performance relative to prior periods and industry comparables. These adjusted measures also aid investors in understanding the operating results of the Company absent such non-recurring or unusual events.

Management considers EBITDA an important indicator of the operational strength and performance of its business, including the ability of the Company to pay interest, service debt and fund capital expenditures. Given the nature of the Company's operations, including the tangible assets necessary to carry out its production and distribution activities, depreciation and amortization represent Ethan Allen's largest non-cash charges. As these non-cash charges do not affect the Company's ability to service debt or make capital expenditures, it is important to consider EBITDA in addition to, but not as a substitute for, operating income, net income and other measures of financial performance reported in accordance with GAAP, including cash flow measures such as operating cash flow.

ETHAN ALLEN REPORTS RESULTS FOR QUARTER ENDED MARCH 31, 2013

DANBURY, CT - April 23, 2013 - Ethan Allen Interiors Inc. (NYSE: ETH) today reported operating results for the three months ended March 31, 2013.

- Consolidated net sales for the quarter were \$168.1 million, a decrease of 4.4% compared with \$175.9 million the prior year which grew 8.0%. The Company's Retail division net sales of \$132.1 million increased 0.5% over the 12.3% growth the prior year. Comparable design center net sales also grew 0.5% this quarter over the 9.4% growth the prior year. Retail division written orders during the quarter were \$28 million greater than their net sales during the quarter, but were 2.4% lower than written orders the prior year third quarter which grew 11.0%. Comparable design center written orders were also 2.4% lower than the prior year.
- Adjusted earnings for the quarter grew 50% to \$0.21 per diluted share or \$6.1 million from \$0.14 per diluted share or \$4.0 million in the prior year quarter. Year to date adjusted earnings grew 44% to \$0.98 per diluted share or \$28.5 million from \$0.68 per diluted share or \$19.7 million the prior period.
- The Company's retail division adjusted operating profit improved by \$7.3 million in the quarter to \$0.7 million or 0.6% of net sales on a 0.5% increase in net sales compared to the prior year quarter. Year to date, the retail division adjusted operating profit improved by \$18.9 million to \$10.3 million or 2.4% of net sales on a 4.2% increase in net sales over the prior year to date.
- Cash and securities as of March 31, 2013 grew to \$117.3 million from \$99.8 million the prior year while paying \$19.6 million in dividends year to date versus \$6.0 million the prior year to date period and managing our inventories at \$142 million, equal to the prior year. Year to date, we have reduced our inventories by 9% or \$13.7 million.

US GAAP net income for the quarter ended March 31, 2013 was \$4.4 million or \$0.15 per diluted share compared with \$27.5 million or \$0.94 per diluted share in the prior year quarter which included \$23.9 million in non-cash tax benefits. Please refer to the attached reconciliations of our GAAP to non-GAAP measures.

Farooq Kathwari, Chairman and CEO commented, "While our third quarter is historically our seasonally slowest delivered sales quarter, our written and delivered sales growth rates this quarter were affected by several factors including: high prior year prototype product sales, adverse timing of the Easter and Passover holidays falling within the current year quarter, and entering the quarter with lower backlogs due to Hurricane Sandy. This quarter, we also had lower shipments to our retailer in China. While their sales of Ethan Allen products have grown nicely, they had accumulated inventory in anticipation of even higher sales and to support a greater number of design center openings."

Mr. Kathwari continued, "We have continued to aggressively manage our expenses and are pleased that our adjusted earnings this quarter improved 50% to \$0.21 per diluted share. This reflects the leverage of our vertically integrated enterprise which we continue to make more efficient. A loss on the sale of a vacant property and international expansion costs totaling \$3.1 million were excluded from the current quarter while \$0.5 million manufacturing expansion costs were excluded from the prior year quarter along with normalizing tax adjustments in both periods."

Page 1 of 7

Mr. Kathwari concluded, "Our focus continues to be on increasing sales. We have major marketing initiatives underway. We are also focused on improving our cash position. We ended the current quarter with a healthy \$117.3 million in cash and securities, up \$17.5 million versus the prior year, after distributing an \$11.8 million special dividend in December 2012 and effectively managing our inventories. We remain cautiously optimistic about our performance in our fourth fiscal quarter and next fiscal year due to the many strong programs already in place and others we will introduce in the coming months."
