## Item 2.02 Results of Operations and Financial Condition

On May 11, 2020, Ethan Allen Interiors Inc. (“Ethan Allen” or the “Company”) issued a press release announcing its financial results for the three and nine months ended March 31, 2020. A copy of the press release is furnished as Exhibit 99.1 hereto and incorporated by reference herein. The information furnished pursuant to this Item 2.02 (Results of Operations and Financial Condition), including Exhibit 99.1, shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (such act being the “Exchange Act”), or otherwise subject to the liabilities of that section, and shall not be deemed to be incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

Exhibit 99.1 to this report contains non-GAAP gross profit and margin, non-GAAP operating income and margin, non-GAAP net income, and non-GAAP diluted earnings per share for the periods presented. These non-GAAP measures are not in accordance with, or an alternative for, measures prepared in accordance with generally accepted accounting principles, and may be different from non-GAAP measures used by other companies. In addition, these non-GAAP measures are not based on any comprehensive set of accounting rules or principles. Ethan Allen believes that non-GAAP measures have limitations in that they do not reflect all of the amounts associated with the Company’s results of operations as determined in accordance with GAAP and that these measures should only be used to evaluate Ethan Allen’s results of operations in conjunction with the corresponding GAAP measures.

Ethan Allen believes that the presentation of non-GAAP measures when shown in conjunction with the corresponding GAAP measures, provides useful information to investors and management regarding financial and business trends relating to its financial condition and its historical and projected results of operations. For its internal budgeting process, Ethan Allen’s management uses financial statements that do not include, when applicable, significant impairments and restructurings, retail acquisition costs, the income tax effects of the foregoing and significant tax matters. The Company’s management also uses the foregoing non-GAAP measures, in addition to the corresponding GAAP measures, in reviewing the financial results of Ethan Allen. From time to time in the future, there may be other items that Ethan Allen may exclude for purposes of its internal budgeting process and in reviewing its financial results.

As described above, Ethan Allen excludes the following items from one or more of its non-GAAP measures when applicable:

- *Significant asset impairments and restructurings.* Ethan Allen from time to time incurs significant asset impairments and restructuring charges, including employee severance, inventory write-downs and other exit costs. The Company excludes these items because it does not believe they are reflective of ongoing business and operating results.
- *Retail acquisition costs.* The Company excludes such expenses related to retail acquisitions and purchases of retail assets that have no direct correlation to the operation of Ethan Allen’s business.
- *Income tax effects of the foregoing.* This amount is used to present each of the amounts described above on an after-tax basis consistent with the presentation of non-GAAP net income.
- *Significant tax matters.* Ethan Allen may incur tax charges or benefits that are related to prior periods or not reflective of its ongoing provision for income taxes. The Company excludes these charges or benefits, when significant, because it does not believe they are reflective of ongoing business and operating results.

From time to time in the future, there may be other items that Ethan Allen may exclude if it believes that doing so is consistent with the goal of providing useful information to investors and management.

# Ethan Allen Provides Business Updates and Reports Fiscal 2020 Third Quarter Results

DANBURY, CT – May 11, 2020 – Ethan Allen Interiors Inc. (“Ethan Allen” or the “Company”) (NYSE: ETH) provided several updates on its business and reported financial results for its fiscal third quarter ended March 31, 2020.

## BUSINESS UPDATE

Farooq Kathwari, Ethan Allen’s Chairman, President and CEO commented, “It has been now almost eight weeks since the Company temporarily closed the Company-operated retail design centers and some of its North American manufacturing operations. I am pleased and proud of the work and attitude of our associates throughout our vertical enterprise during this unprecedented crisis.”

“As we mentioned in our April 22, 2020 press release, our fiscal third quarter results were negatively impacted as a result of the lower order backlog entering the quarter from our transition to a membership model combined with disruptions due to COVID-19. While our third quarter revenues of \$150 million were lower than forecasted, we saw strong growth in orders for the first two months of our fiscal third quarter, until the significant disruption in March. In April, with almost all our design centers closed, we were still able to generate about 35% of written orders compared to April 2019. This was due to our interior design associates working remotely utilizing technology we deployed over the last few years, including the Ethan Allen inHome augmented reality app, 3D room planner tool, Live Chat on ethanallen.com and communications tools including Skype and FaceTime,” Mr. Kathwari continued. “We are excited that our design centers are reopening in many markets around the country and we have begun a phased recall of some of our furloughed associates. We are also pleased that we have restarted most of our manufacturing in North America – again phasing in associates and keeping the safety of our teams uppermost in our decisions.”

Mr. Kathwari further stated, “Our vertical integration provides us strong gross margins and operating leverage. During the third quarter ended March 31, 2020, we returned value to stockholders through regular quarterly dividends of \$5.5 million and share repurchases of \$14 million representing 3.8% of our outstanding shares. In view of the COVID-19 challenges, the Company has decided to temporarily suspend its regular cash dividends and the share repurchase program. We also took other steps to conserve cash including the furlough of approximately 70% of the global workforce, reductions in salaries and elimination of all non-essential operating expenses.”

“Crisis creates opportunity. We are reviewing every aspect of our vertically integrated operations and are confident we will come out stronger. At March 31, 2020 we had cash of \$117 million, which included \$100 million drawn from our revolving credit facility. We believe our liquidity will be sufficient to fund our operations for at least the next twelve months,” Mr. Kathwari concluded.

## FISCAL 2020 THIRD QUARTER HIGHLIGHTS\*

- Consolidated net sales of \$149.8 million compared with \$177.8 million.
- Consolidated gross margin of 56.1% compared with 55.3%. Adjusted gross margin of 56.0%.
- Diluted earnings per share (“EPS”) of (\$0.01). Adjusted EPS of \$0.02 compared with \$0.31.
- Cash on hand of \$116.9 million as of March 31, 2020 and long-term debt of \$100 million.
- Generated \$15.3 million of cash from operating activities compared with \$12.8 million.
- Paid regular quarterly cash dividend of \$5.5 million.
- Share repurchases of \$14.3 million, representing 992,636 shares or 3.8% of outstanding shares.
- The Company performed an interim quantitative impairment assessment of goodwill and other intangible assets and concluded there was no impairment as of March 31, 2020.

## COVID-19 UPDATE

The Company has taken decisive actions to manage liquidity and costs through the challenging economic environment caused by COVID-19. The pandemic and ensuing government restrictions resulted in temporary closing of the Company's North American design centers and manufacturing since March 19. The Company implemented its action plan in response to the COVID-19 pandemic. Measures taken included, among other things, the continued temporary closure of the Company's design centers and most of its manufacturing facilities, the furlough of approximately 70% of the global workforce, the decision by the Company's CEO to temporarily forego his salary through June 30, 2020, a temporary up to 40% reduction in salaries for all senior management and up to 20% for other salaried employees through June 30, 2020, a temporary reduction of 50% in cash compensation of the Company's directors, the elimination of all non-essential operating expenses, a delay of capital expenditures, the temporary halt of the share repurchase program and a temporary suspension of the quarterly dividend. These actions are expected to result in reduced cash spending versus plan.

The Company began reopening design centers in a number of U.S. states since May 1, 2020 and began resuming production in some of its North American manufacturing plants in a limited capacity to work through existing backlog and to be in a position to service expected demand as the economy begins to reopen for business. As of May 11, 2020, Ethan Allen has reopened either fully or partially approximately 60% of its Company-operated retail design centers. Additional design centers are expected to reopen in the coming weeks when permitted based on applicable state and local guidelines. The Company's distribution centers are open and making home deliveries.

## FISCAL 2020 THIRD QUARTER FINANCIAL RESULTS

### Consolidated

**Net sales** were \$149.8 million, a decrease of 15.8% or \$28.1 million compared to the same prior year period. Net sales were negatively impacted as a result of the lower order backlog entering the quarter from the transition to a membership model combined with disruptions in March 2020 from the closing of the Company's design centers and manufacturing plants due to COVID-19. International sales decreased 33.6% primarily due to lower sales to China and in Canada.

**Gross profit** was \$83.9 million compared with \$98.4 million in the prior year period due to lower sales volumes in both the wholesale and retail segments combined with a change in product mix, partially offset by an improved retail gross margin. Retail sales, as a percentage of total consolidated sales, was 77.2% in the current year third quarter, down from 78.1% a year ago, which negatively impacted consolidated gross profit. Consolidated gross margin for the quarter improved to 56.1%, up from 55.3% in the prior year, primarily due to retail gross margin expanding 130 basis points from improved retail price optimization.

**Operating expenses** decreased 3.4% to \$84.7 million compared with the prior year period primarily due to lower retail selling costs and lower general and administrative costs partially offset by higher television and radio advertising costs. Retail selling expenses were down due to warehouse and delivery expenses decreasing from a 16.7% reduction in retail net sales and a decrease in designer selling expenses. General and administrative expenses decreased primarily due to lower wholesale compensation costs coupled with lower depreciation, occupancy costs and regional management charges within the retail segment.

**Operating loss** of \$0.8 million compared with operating income of \$10.7 million for the prior year third quarter. Adjusted operating income, which excludes restructuring and impairment charges, was \$0.4 million. The decrease was driven by the 15.8% decline in consolidated net sales, which negatively impacted gross profit by 14.7% combined with a decrease in the retail/wholesale product mix and higher selling costs from television and radio advertising spend. These decreases were partially offset by improved expense management and gross margin improvement, which rose 80 basis points year over year.

**Income tax benefit** on the operating loss was \$0.3 million in the current year third quarter compared with income tax expense of \$2.6 million a year ago. The effective rate was 58.8% in the current year third quarter compared with 24.8% last year.

**Diluted EPS** was (\$0.01) compared with \$0.30 in the prior year comparable period. Adjusted diluted EPS was \$0.02 compared with \$0.31 in the prior year. This decrease was primarily from net sales being negatively impacted as a result of the COVID-19 pandemic combined with lower backlog entering the quarter from the Company's transition from a promotional to membership model.

### Wholesale Segment

**Net sales** decreased 14.1% to \$93.1 million primarily due to a 24.5% decrease in sales to the Company's North American retail network and a 36.3% decrease in international sales. Wholesale net sales were significantly impacted in the quarter due to the transition to a membership model and COVID-19. Prior to March 2020, wholesale net sales were improving sequentially each month as customer demand increased. Partially offsetting these declines was growth in contract sales, which grew 24.2%. The year over year increase in contract sales was attributable to continued growth in sales from the GSA contract.

**Wholesale orders** booked, which represents orders booked through all of the Company's channels, were down 21.9% compared with the same quarter last year. Orders from the Company's North American retail network declined 32.0% while wholesale orders from China declined 25.7% from a year ago mainly due to local quarantines in place for most of the fiscal third quarter. The closing of the Company's retail design centers and manufacturing operations during March 2020 negatively impacted results, as evidenced by a 37.3% decrease in March 2020 wholesale orders compared to a year ago. Increasing concern about the economy and rising unemployment softened customer demand as the volume of new orders was significantly lower in March 2020.

**Operating income** was \$8.9 million compared with \$13.0 million in the prior year period, primarily due to the \$15.2 million decrease in wholesale net sales partially offset by lower general and administrative expenses.

#### **Retail Segment**

**Net sales** from Company-operated design centers decreased by \$23.2 million, or 16.7%, to \$115.7 million. There was a 16.3% decrease in net sales in the United States, while net sales from Canadian design centers decreased 29.7%. These decreases were primarily due to the transition to the membership model and COVID-19. There were 144 Company-operated design centers at the end of the third quarter of fiscal 2020, compared to 143 in the prior year period as the Company continues to relocate and open new locations while closing older locations.

**Operating loss** was \$8.8 million compared with an operating loss of \$1.7 million for the prior year period. Operating margin decreased 640 basis points due to the \$23.2 million reduction in net sales partially offset by improved gross margin and a 3.1% decrease in operating expenses from lower depreciation, selling, occupancy and regional management costs.

#### **FISCAL 2020 YEAR-TO-DATE FINANCIAL RESULTS**

##### **Consolidated**

**Net sales** were \$498.3 million, a decrease of 11.5% compared with the same prior year period. Net sales decreased by 14.3% within the wholesale segment and by 11.4% in the retail segment. There was a \$12.8 million decrease in international sales primarily related to lower sales to China and in Canada. Net sales to China were 47.3% lower in the current year compared with the same period last fiscal year as China was significantly impacted by COVID-19. The transition to a membership model, COVID-19 and softer order trends from consumers also negatively impacted fiscal 2020 net sales.

**Gross profit** decreased 10.8% to \$275.3 million compared with the prior year period due to declines within both the wholesale and retail segments. Retail sales, as a percentage of total consolidated sales, were 78.7% in both periods presented. Wholesale and retail gross profit were both negatively impacted by lower sales volumes partially offset by higher adjusted gross margins. Fiscal 2020 adjusted gross margin improved to 56.2%, up from 54.9% in the prior year primarily due to improved retail price optimization and increased wholesale contract business. Restructuring charges negatively impacted fiscal 2020 consolidated gross margin by 100 basis points.

**Operating expenses** increased to \$248.2 million compared with \$270.1 million in the prior year period. The 8.1% decrease was due to lower retail selling costs, a reduction in general and administrative expenses and a gain of \$11.5 million from the sale of the Passaic property during fiscal 2020 partially offset by higher wholesale advertising costs. Retail selling expenses were lower due to reduced volume of shipments. General and administrative expenses decreased 6.1% due to lower wholesale compensation costs coupled with lower depreciation, occupancy costs and regional management charges within the retail segment.

**Operating income** totaled \$27.1 million compared with \$38.6 million for the prior year period. Adjusted operating income in fiscal 2020 was \$22.1 million, a decrease of 43.7% compared to last year. The decrease in adjusted operating income was driven by the 11.5% decline in consolidated net sales combined with higher selling costs from television and radio advertising spend.

**Income tax expense** was \$6.4 million for the first nine months of fiscal 2020 compared with \$9.7 million a year ago. The fiscal 2020 effective rate decreased to 23.4% compared with 25.0% in the prior year.

**Diluted EPS** was \$0.80 compared with \$1.08 in the prior year period. Restructuring and impairment charges partially offset by the gain on the sale of the Passaic property reduced diluted EPS by \$0.15. Adjusted diluted EPS of \$0.65 in the current year represents a decrease of 40.9% over the prior year.

## **Balance Sheet and Cash Flow**

**Total cash and cash equivalents** was \$116.9 million at March 31, 2020 compared with \$20.8 million at June 30, 2019. Total cash increased during fiscal 2020 due to borrowings on the Company's revolving credit facility of \$100.0 million, net cash provided by operating activities of \$38.7 million and proceeds from the sale of the Company's Passaic property of \$11.7 million, partially offset by \$24.3 million in share repurchases, \$16.2 million in dividend payments and \$12.5 million of capital expenditures.

**Inventories** of \$138.8 million decreased \$23.6 million from the balance of \$162.4 million at June 30, 2019. Wholesale finished goods levels decreased \$16.0 million primarily from the first quarter non-cash write-down and disposal of certain slow moving and discontinued inventory items. Retail inventory levels decreased \$3.8 million as the Company further improved its efforts to minimize inventory carrying costs.

**Goodwill** is evaluated for impairment on an annual basis during the fourth quarter of each fiscal year, and between annual tests whenever events or circumstances indicate that the carrying value of the goodwill may exceed its fair value. The Company determined that it was appropriate to perform an interim impairment test as of March 31, 2020 due to the significant adverse changes in the business climate from the COVID-19 health crisis, as evidenced by the sudden and dramatic decline in the financial markets, including its stock price, the closing of retail and manufacturing businesses combined with weakened operating results. The Company concluded there was no impairment of goodwill on its wholesale reporting unit's books as of March 31, 2020.

**Debt** outstanding was \$100.0 million at March 31, 2020 as the Company drew down on its existing credit facility during March 2020. The debt bears a weighted average interest rate 2.45% and the principal balance is payable on the maturity date of December 21, 2023. The Company elected to draw down on the facility to increase its cash position as a precautionary measure and to preserve financial flexibility in consideration of the disruption and uncertainty surrounding the ongoing COVID-19 pandemic.

**Capital expenditures** were \$12.5 million, an increase of \$5.5 million compared to the \$7.0 million spent a year ago. In fiscal 2020, approximately 57% of the Company's total capital expenditures related to opening new and relocating design centers in desirable locations, updating existing design center presentations and floor plans and opening new home delivery service centers. The remaining 43% was primarily capital expenditures incurred in connection with the previously announced optimization project. As previously announced on April 1, 2020, the Company has stopped all discretionary capex spending.

**Cash Dividends** paid during fiscal 2020 totaled \$16.2 million, a decrease of \$25.7 million over a year ago due to the special dividend of \$26.7 million paid in January 2019. On January 29, 2020, the Company's Board of Directors approved a regular quarterly dividend of \$0.21 per share. The cash dividend of \$5.3 million was paid on April 23, 2020, to common stockholders of record at the close of business on April 9, 2020. The Company's regular quarterly cash dividend was temporarily suspended as of April 28, 2020, due to the COVID-19 impact.

## **LEASES**

The Company adopted Accounting Standards Update 2016-02, *Leases (Topic 842)*, as of July 1, 2019 using the modified retrospective method and have not restated comparative periods. Upon adoption, the Company recognized operating lease assets of \$129.7 million and operating lease liabilities of \$149.7 million on its consolidated balance sheet. In addition, \$20.0 million of deferred rent and various lease incentives, which were reflected as other long-term liabilities as of June 30, 2019, were reclassified as a component of the right-of-use assets upon adoption. The Company also recognized a cumulative adjustment as of July 1, 2019, which decreased opening retained earnings by \$1.6 million due to the impairment of certain right-of-use assets. The adoption of the new standard did not have a material impact on the consolidated statements of operations or cash flows during fiscal 2020.

## ANALYST CONFERENCE CALL

Ethan Allen will host an analyst conference call today, May 11, 2020 at 5:00 PM (Eastern Time) to discuss its financial results. The analyst conference call will be webcast live from the “Events and Presentations” page at <http://www.ethanallen.com/investors>. The following information is provided for those who would like to participate:

- U.S. Participants: 844-822-0103
- International Participants: 614-999-9166
- Conference ID: 6853339

For those unable to listen live, an archived recording of the call will be made available on the Company’s website referenced above for at least 60 days.

## ABOUT ETHAN ALLEN

Ethan Allen Interiors Inc. (NYSE: ETH) is a leading interior design company and manufacturer and retailer of quality home furnishings. The Company offers complimentary interior design service to its clients and sells a full range of furniture products and decorative accessories through [ethanallen.com](http://ethanallen.com) and a network of approximately 300 design centers in the United States and abroad. ## ABOUT NON-GAAP FINANCIAL MEASURES

This press release is intended to supplement, rather than to supersede, the Company’s consolidated financial statements, which are prepared and presented in accordance with U.S. generally accepted accounting principles (“GAAP”). In this press release the Company has included financial measures that are not prepared in accordance with GAAP. The Company uses non-GAAP financial measures, including adjusted gross profit and margin, adjusted operating income and margin, adjusted net income, and adjusted diluted EPS (collectively “non-GAAP financial measures”). The Company computes these non-GAAP financial measures by adjusting the comparable GAAP measure to remove the impact of certain charges and gains and the related tax effect of these adjustments. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for, or superior to, the financial measures presented in accordance with GAAP. The Company uses these non-GAAP financial measures for financial and operational decision making and to evaluate period-to-period comparisons. The Company believes that they provide useful information about operating results, enhance the overall understanding of past financial performance and prospects, and allow for greater transparency with respect to key metrics used by management in its financial and operational decision making. A reconciliation of the non-GAAP financial measures to the most directly comparable financial measure reported in accordance with GAAP is provided at the end of this press release.

## FORWARD-LOOKING STATEMENTS

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), which represent management's beliefs and assumptions concerning future events based on information currently available to the Company relating to its future results. Such forward-looking statements are identified in this press release and the related webcasts, conference calls and other related discussions or documents incorporated herein by reference by use of forward-looking words such as "anticipate," "believe," "plan," "estimate," "expect," "intend," "will," "may," "continue," "project," "target," "outlook," "forecast," "guidance," "COVID-19 impact," variations of such words, and similar expressions and the negatives of such forward-looking words are intended to identify such forward-looking statements. These forward-looking statements are subject to management decisions and various assumptions about future events and are not guarantees of future performance. Actual results could differ materially from those anticipated in the forward-looking statements due to a number of risk factors and uncertainties including, but not limited to the following: volatile retail environment and changing economic conditions may further adversely affect consumer demand and spending; global and local economic uncertainty may materially adversely affect our manufacturing operations or sources of merchandise and international operations; disruptions of our supply chain; changes in United States trade and tax policy; competition from overseas manufacturers and domestic retailers; failure to successfully anticipate or respond to changes in consumer tastes and trends in a timely manner; our ability to maintain and enhance our brand; our number of manufacturing and logistics sites may increase our exposure to business disruptions and could result in higher transportation costs; fluctuations in the price, availability and quality of raw materials could result in increased costs or cause production delays; our current and former manufacturing and retail operations and products are subject to increasingly stringent environment, health and safety requirements; the use of emerging technologies as well as unanticipated changes in the pricing and other practices of competitors; reliance on information technology systems to process transactions, summarize results, and manage our business and that of certain independent retailers; disruptions in both our primary and back-up systems; product recalls or product safety concerns; successful cyber-attacks and the ability to maintain adequate cyber-security systems and procedures; loss, corruption and misappropriation of data and information relating to customers; loss of key personnel; additional asset impairment charges that could reduce our profitability; access to consumer credit could be interrupted as a result of conditions outside of our control; our ability to locate new design center sites and/or negotiate favorable lease terms for additional design centers or for the expansion of existing design centers; changes to fiscal and tax policies; our operations present hazards and risks which may not be fully covered by insurance; possible failure to protect our intellectual property; failure to successfully transition from a promotional to a membership model; potential risks and uncertainties relating to the duration, severity and geographic spread of the COVID-19 pandemic and its impact on our business, supplies, customers, employees and supply chains; actions that may be taken by governmental authorities to contain the COVID-19 pandemic or to mitigate its impact; the potential negative impact of COVID-19 on the global economy, consumer demand and the supply chain; the impact of COVID-19 upon our ability to reopen design centers and resume manufacturing operations and the resulting effects upon our financial condition, results of operations and liquidity; and other factors disclosed in Part I, Item 1A. Risk Factors in our 2019 Annual Report on Form 10-K.

Given the risks and uncertainties surrounding forward-looking statements, you should not place undue reliance on these statements. Many of these factors are beyond the Company's ability to control or predict. These forward-looking statements speak only as of the date of this press release. Other than as required by law, the Company undertakes no obligation to update or revise its forward-looking statements, whether because of new information, future events, or otherwise. Accordingly, actual circumstances and results could differ materially from those contemplated by the forward-looking statements.

**Reconciliation of U.S. GAAP Results to Adjusted Financial Measures**

To supplement the financial measures prepared in accordance with generally accepted accounting principles in the U.S., or U.S. GAAP, the Company uses non-GAAP financial measures including adjusted gross profit and margin, adjusted operating income, adjusted retail operating income and margin, adjusted wholesale operating income and margin, adjusted net income and adjusted diluted earnings per share. The reconciliations of these non-GAAP financial measures to the most directly comparable financial measures calculated and presented in accordance with U.S. GAAP are shown in tables below.

These non-GAAP measures are derived from the consolidated financial statements but are not presented in accordance with U.S. GAAP. The Company believes these non-GAAP measures provide a meaningful comparison of its results to others in its industry and prior year results. Investors should consider these non-GAAP financial measures in addition to, and not as a substitute for, its financial performance measures prepared in accordance with U.S. GAAP. Moreover, these non-GAAP financial measures have limitations in that they do not reflect all the items associated with the operations of the business as determined in accordance with U.S. GAAP. Other companies may calculate similarly titled non-GAAP financial measures differently than the Company does, limiting the usefulness of those measures for comparative purposes.

Despite the limitations of these non-GAAP financial measures, the Company believes these adjusted financial measures and the information they provide are useful in viewing its performance using the same tools that management uses to assess progress in achieving its goals. Adjusted measures may also facilitate comparisons to historical performance.

The following tables below show a reconciliation of non-GAAP financial measures used in this press release to the most directly comparable U.S. GAAP financial measures.
